PROFESSIONAL SUMMARY

Recent Computer Engineering graduate (Altınbaş University, GPA 3.3/4.0) building full-stack web apps, customizing ERP/CRM systems, and analyzing data pipelines. Proficient in React, Next.js, TypeScript, Node.js, and PostgreSQL, with production Odoo CRM/ERP experience. Fluent in Arabic, English, and conversational Turkish — seeking full-time Software Engineer roles.

WORK EXPERIENCE

Software Developer Intern

Jan 2026 – Apr 2026

EDM Company • Beirut, Lebanon

- Developed and customized Odoo CRM modules supporting client relationship management workflows.
- Built a real estate management module from scratch, covering property listings, offer handling, and role-based access control.
- Collaborated with senior developers to translate business requirements into functional, production-ready solutions.
- Tested, debugged, and documented CRM features to ensure reliability ahead of release.

Web Data Analyst

Jan 2024 – Jan 2025

Oktamam • Istanbul, Turkey (Hybrid)

- Analyzed and structured web data, maintaining accuracy and consistency across digital platforms.
- Applied analytical skills to support reporting and data-driven decision-making.
- Worked independently and collaboratively across multiple projects in a hybrid environment.

PROJECTS

SnapSpend — github.com/Omarrstm/snapspend

Offline, on-device expense tracker for Android. Snapping a photo of a receipt runs on-device OCR (Google ML Kit) to parse merchant, total, and date into an editable form — no cloud API, account, or network connection required. Category-filtered expense history and monthly spending stats, backed by local SQLite storage, with Jest unit tests on the parsing heuristic and GitHub Actions CI.

React Native • Expo • TypeScript • SQLite • ML Kit • Jest

FitFork — github.com/Omarrstm/FitFork • fitfork-ochre.vercel.app

Two-sided marketplace connecting home cooks with buyers who track macros. Cooks list meals with full nutrition breakdowns; buyers filter by macros/diet, order through a real status lifecycle, and leave ratings/reviews. Hand-rolled auth, schema, and API layer, backed by automated tests and CI on every push.

Next.js • TypeScript • Prisma • PostgreSQL • NextAuth • Vitest • Tailwind CSS

TheTouristGuide — github.com/Omarrstm/TheTouristGuide • the-tourist-guide.vercel.app

Full-stack travel review platform: place reviews, guide messaging, shareable trip itineraries, an interactive map (Leaflet/OpenStreetMap), an admin moderation queue, and in-app/email notifications — backed by a normalized Postgres schema with 15+ Prisma models.

Next.js • TypeScript • Prisma • PostgreSQL • Tailwind CSS • Leaflet

Gym Tracker — github.com/Omarrstm/Gym-tracker • gym-tracker-chi-tawny.vercel.app

Self-hosted workout tracker. Build weekly training programs with per-exercise targets, log sets against today's session, and track progress via PR detection and an estimated 1RM chart, plus body-stat tracking (BMI/BMR) and a configurable rest timer.

Next.js • TypeScript • Prisma • PostgreSQL • Tailwind CSS • Resend

EDUCATION

Bachelor of Engineering – Computer Engineering

Oct 2022 – Jul 2026

Altınbaş University • Istanbul, Turkey • GPA: 3.3/4.0

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, C++, SQL

Frontend: React, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express, REST APIs, PostgreSQL, Prisma, Odoo

Tools: Git, GitHub, Linux, VS Code, Microsoft Office

LANGUAGES

Arabic (Native) • English (Native/Bilingual) • Turkish (Limited Working) • French (Elementary)

VOLUNTEERING

Volunteer Staff — Lebanese Spotlight

Jan 2021 – Jun 2022

- Contributed to environmental awareness initiatives and community outreach programs.
- Coordinated with team members to organize and execute volunteer events effectively.
